EASYKEY

The Key to Your  
New Home

**RPS**

## The key to your new home

Easykey is our innovative finance solution that can help you achieve your dream home with a minimum deposit of only 10%.

This finance solution is much like a turnkey home and land package, but with all the benefits of your design input to see your dream home come to life.

We take pride in delivering a unique home suited to your specific lifestyle, working closely with you to ensure that we understand your vision and needs.

## Take the stress out of your build

By choosing the Easykey Finance option when building with RPS, all you need to get started with your build is a 10% deposit. You will not be required to make any more payments until you take ownership of your new home.

Easykey is the perfect option for those who will be renting while building, as you won't have to worry about mortgage repayments, progress payments or any surprise build costs.

We will purchase your choice of section, build your dream home, add the cost of finance and sell the completed package to you at its completion.

**Fixed price, no surprises guaranteed.**

## THE EASYKEY PROCESS

### CHOOSE

We evaluate your chosen site to ensure it is suitable for your intended new home and budget.

### DESIGN

We discuss your design ideas and create a unique home suited to your specific lifestyle.

### FINANCE

We provide a transparent summary of your finance costs (interest rates and establishment fees).

### BUILD

All you need to get started on your build is a 5% deposit, with the balance paid on completion.

### HANDOVER

Pay the remaining balance on completion and turn the key to your new home!

## No surprises guaranteed

RPS is a Registered Master Builder, providing you with the peace of mind of a Master Build 10-Year Guarantee when you build with us. In the unlikely event of anything going wrong with your build, we will resolve any issues and ensure your home's finished to the highest quality.

We also understand the needs and desires of our clients, carefully planning your home to minimise any unexpected additional costs. With over 20 years building experience, we are able to identify certain areas where discrepancies may occur and together we can plan for these.

## Proudly supported

Easykey is offered in conjunction with ASB Bank, financing 80% of your build costs. The remaining 20% of build costs, GST and build margin is funded by RPS.

We are also proudly supported by Carters Hamilton and Cambridge, who we have been in business for over 20 years.
